

## SAGEX full events programme

Event	Description	Date	Location
SAGEX kick-off meeting	Organisational meeting combined with scientific talks.	4-7 Sept 2018	QMUL
Amplitudes 2019	International conference	1-5 July 2019	Trinity College Dublin
1 <sup>st</sup> SAGEX training school	Scientific, soft-skills and outreach training, including an introduction to scattering amplitudes and advanced topics in string/field theory.  Open to 20 external participants.	22-26 July 2019	DESY
1 <sup>st</sup> SAGEX workshop	ESR scientific research talk, meetings with industry partners, mentoring meetings and networking opportunities.	29 July-2 Aug 2019	DESY
Review meeting	Formal project review with the REA Project Officer.  SAGEX members only.	8 Nov 2019	London
2 <sup>nd</sup> SAGEX training school	Mathematical structures in amplitudes  Open to 20 external participants.	17-21 Feb 2020	Humboldt University Berlin
2 <sup>nd</sup> SAGEX workshop	Soft-skills and outreach training, ESR talks.	24-28 Feb 2020	Humboldt University Berlin
3 <sup>rd</sup> SAGEX workshop	ESR talks, soft skills training.	27-28 July	Online
School on Maple/Mathematica/Computer algebra in amplitudes research	The use of Maple and Mathematica in amplitudes research, with applications to relevant problems including polylogarithms and their relevance to particle physics.  Open to 20 external participants.	TBC	Online

European study group with industry	Collaborations between SAGEX ESRs and industry partners on real-world problems.	11 – 16 April 2021	Durham University
SAGEX young researchers' amplitudes school	Amplitudes 2021 school, organised and run by the ESRs.	9 – 13 August 2021	University of Copenhagen
Amplitudes 2021	International conference	16 – 20 August 2021	University of Copenhagen
SAGEX closing workshop	Achievements, future collaborative plans, dissemination and impact.	Latest August 2022	QMUL
